QUICKBITE · CUSTOMER EXPERIENCE

AI Customer Support FAQ Assistant

Next-Gen Intelligent Customer Experience for QuickBite Food Platform

100% TESTED

Powered by Google NotebookLM · Domain: Food & Logistics

Made with GAMMA

HOW IT WORKS

Grounded knowledge, built for live orders

Three controls keep every answer useful, immediate, and specific to QuickBite.

Grounded data

Answers are generated strictly from verified **faq.docx** to prevent hallucinations.

Round-the-clock

Instant automated resolution for delivery and order queries, whenever customers ask.

Domain specific

Specialized in QuickBite live orders, refunds, and tracking.

Made with GAMMA

VALIDATION DASHBOARD

Accuracy was verified before launch

30

TOTAL CASES

Standard, tricky, and off-topic scenarios tested.

VERIFIED

100%

ACCURACY

Zero wrong or unsafe outputs.

PASSED

0

HALLUCINATIONS

Strict source-bounded responses.

CLEAN

Release gate cleared

Every tested response stayed accurate, safe, and within the verified FAQ boundary.

Made with GAMMA

GUARDRAILS & HANDOFFS

Helpful by default. Human when it matters.

Safety rules keep the assistant inside its lane while preserving a clear path to support.

Source grounding

Zero external data leakage. Context stays strictly bounded to the uploaded **faq.docx** source.

Off-topic rejection

Politely declines non-food queries such as weather, coding, and sports.

Human escalation

Seamless handoff to human support for complex refund disputes.
